

Beekeeping for Beginners

Purpose of the Course

To teach you the basics of beekeeping so you are ready to start beekeeping in the spring. Either with you own hive , or, by attending our teaching Apiary

What we cover

- Introductory session
- A quick guide to Bee Biology
- Setting up your Apiary... and your bee garden
- Beekeeping Equipment
- Managing the Bees
- The Beekeeping year
- Keeping bees healthy
- Products of the hive

Following on.

For those who want to learn more you will be welcome to join Croydon Beekeepers and take part in our range of activities

A face to face afternoon session in the new year. (Subject to Social distancing)

What's App group that provides informal support

Practical Sessions in our Teaching Apiaries (Spring 2021)

Honey extraction meeting in the summer

...and for those of you who get hooked...

The start of a lifetime of learning about bees and beekeeping.
